**WANTED:** Chemist with background and experience in polymer characterization. Masters or PhD level candidates preferred.

Jordi Labs, a *contract analytical service laboratory* located in Bellingham, MA currently has an exciting new job opportunity available.

We are looking for individuals at the Masters or PhD level who are actively involved in research related to, or requiring *polymer characterization*. Our organization focuses on *deformulation and analytical methods development on synthetic materials*, including polymers and plastics. Strong knowledge and experience in **mass spectroscopy** and **chromatography techniques** is preferred.

***Background/educational requirements:***

- ✓ Masters or PhD
- ✓ Polymer *and* analytical chemistry experience
- ✓ Research and development related to, or involving *polymer characterization*

***Duties:***

- ✓ Design analytical strategies to solve clients' materials-related issues
- ✓ Develop and optimize analytical methods
- ✓ Oversee and execute analyses
- ✓ Write final reports compiling various data sets to detail the final conclusion

***Job related qualities:***

- ✓ Driven and details oriented
- ✓ Ability to estimate probability of success when designing an analytical strategy
- ✓ Excellent oral and written communication skills
- ✓ Masterful ability to write thoughtfully, carefully and scientifically
- ✓ Adaptable
- ✓ Problem solving and creative mind-set

Ideal candidate will have a *strong background in polymer characterization* on the Masters or PhD level. We are looking for an individual with an inherent sense of integrity and a humble attitude, who is open to learning through the instruction of colleagues, and adapting to Jordi's internal system (in lab operations and/or sales engineering).

***Jordi's visa policy:*** Jordi Labs LLC is happy to sponsor potential employee(s) requiring a visa. Jordi Labs will not be involved in completing paperwork or providing funding for visas. Our organization will be happy to provide a statement of employment required by the government.
