Original Contributions

<i>G. Titomanlio, V. Drucato, M. R. Kamal</i> Mechanism of Cooling Stresses Build-Up in Injection Molding of Thermoplastic Polymers	55
<i>Hidetsune Hojo, E. Gon Kim, Kiichi Tamakawa</i> The Fibre Content Distribution of Compression Molded Long Fibre-Reinforced Thermoplastic Products	60
<i>M.J. Shankernarayanan, D. C. Sun, M. Kojima, J. H. Magill</i> Rolltrusion: Doubly-Orientation Processing and Morphology - Property Relationships for Commercial Plastics	66
<i>N. Okui, M. Takahiro, J. Kikuchi, S. Umemoto, T. Sakai</i> Effect of Draw Ratio on Amorphous Orientation and Physical Property of High Modulus Polyethylene Filaments Prepared by Zone-Drawing	77
<i>James L. White, Y. Matsukura, Ho Jong Kang, H. Yamane</i> A Study of the Mechanisms of Haze and Surface Roughness in Tubular Film Extrusion	83
<i>H. Kühnle</i> Evaluation of the Viscoelastic Temperature and Pressure Shift Factor Over the Full Range of Shear Rates.....	89
<i>S. Nam</i> Mechanisms of Fluoroelastomer, Processing Aid in Extrusion of LLDPE	98
