Original Contributions

<i>Z. Tadmor</i> The Synthesis of Polymer Processing Machines	3
<i>A. N. Alexandrou, T. C. Papanastasiou</i> Non-isothermal Extrusion of Composite Materials	15
<i>T. Kikutani, H. Morinaga, A. Takaku, J. Shimizu</i> Effect of Spin line Quenching on Structure Development in High-speed Melt Spinning of PET	20
<i>Y. Shi, J. L. White</i> Structure Development in Melt Spinning and Drawing of Nylon- 11 and Nylon- 12 Fibers	25
<i>A. K. Mukhopadhyay, A. Misra, B. Dutta</i> Incremental Drawing of Polyethylene-terephthalate Partially Oriented Yarn (PET-POY)	32
<i>Z. Zhou, X. Wu, M. Yu</i> Naphthalene-ring Containing Thermotropic Copolyester and its Blends with PET	37
<i>T. M. Malik, P. J. Carreau, H. P. Schreiber, A. Rudin, W. Tchir</i> Drawing Behavior of Solution Modified Polyethylene	42
<i>D. Wu, N. Tang, D. Gu, W. Wen</i> Rheological Properties and Morphological Structure of Blended and Filled Nylon-6	47
<i>K. G. Blizard, T. S. Wilson, D.G. Baird</i> Film Blowing of Thermotropic Liquid Crystalline Polymers	53
<i>H. J. Kang, J. L. White, M. Cakmak</i> Single and Double Bubble Tubular Film Extrusion of Polyethylene Terephthalate	62
