

CONTENTS

Editorial

Vinogradov Career Celebrated in Odessa222

Original Contributions

F. Hensen
 Innovative Extrusion Systems for Advanced Fiber and Film Extrusion223

T. Sakai
 Influence of Melting Zone and Melt Homogeneity on Extrusion and Injection
 Molding Processes229

R. Brzoskowski, J. L. White
 Further Considerations of Simulation of Flow in Pin Barrel Extruders and in Screw
 Extruders with Sliced Flights238

A. Hannachi, E. Mitsoulis
 Deformation Fields and Residence Time Distributions in Polymer Melt Flows.....244

A. J. McHugh, B. Khomami
 Flow History - Morphology Development in Crystallizable Polymer Melts252

Y. Xu, R. Qian
 Rheological Studies on Solutions of Poly-p-phenylene Terephthalamide in H₂SO₄.258

P. Barq, J. M. Haudin, J. F. Agassant, H. Roth, P. Bourgin
 Instability Phenomena in Film Casting Process264

P. Duffo, B. Monasse, J. M. Haudin
 Influence of Stretching and Cooling Conditions in Cast Film Extrusion of PP Films . . 272

A. Ghijssels, J.J.S.M. Ente, J. Raadsen
 Melt Strength Behavior of PE and its Relation to Bubble Stability in Film Blowing.....284

M. Takashige, T. Kanai
 Dynamics of Double Bubble Tubular Film Process for Producing Biaxially oriented
 Nylon 6 Film287

A. A. Tseng, P. F. Sun
 A Finite Difference Study of Roll Design in Calendering Processing 292
