

CONTENTS

Editorial

Paul Troester Maschinenfabrik
 Pioneer Screw Extruder Manufacturer 110

Continuous Mixing and Compounds

D. Bigio, K. Cassidy, M. Dellapa, W. Baim
 Starve-fed Flow in Co-Rotating Twin Screw Extruders 111

T. Sakai, K. Nakamura, S. Inoue
 Process for Improvement in Toughness of Unsaturated Polyester
 with Elastomer 116

B. Žerjal, V. Musil, Ž. Jelčić, I. Šmit, T. Malavašić
 Mechanical Properties of Thermoplastic Polyurethane Blends and
 Copoly-mers of Styrene and Acrylonitrile..... 123

Extrusion

H. Benkreira, R. W. Shales, M. F. Edwards
 Mixing on Melting in Single Screw Extrusion 126

Z. Ji, A. D. Gotsis
 Numerical Study of Slip at the Walls in the Extruder 132

D. N. Githuku, A. J. Giacomini
 Elimination of Sag in Plastic Pipe Extrusion 140

Fibers and Film

G. Vassilatos, E. R. Schmelzer, M. M. Denn
 Issues Concerning the Rate of Heat Transfer from a Spinline 144

J. P. Wu, J. L. White
 Skew Stretched Polycarbonate Films 151

Molding

M. Fujiyama, T. Wakino
 Molecular Orientation in Injection-Molded Polypropylene Copolymers with Ethylene 159

M. Fujiyama
 Melt-recrystallization of Talc-filled Polypropylene Injection Moldings 165

D. M. Bigg
 Processing Characteristics of Thermoplastic Sheet Composites 172

Rapid Communications of Recent Advances

C.-C. Lee, J. F. Stevenson
 The Face-relief Strategy for Design of Profile Dies 186
