

Dear colleagues, dear friends,

We intend to build a Polymer Processing Research and Educational Centers Network which would be presented on the PPS website. Those interested to join this network as members should meet the following conditions:

1. At least 1 member of the center is a member of PPS.
2. Center runs research and a Ph.D. program in polymer processing.
3. Center has Ph.D. students.
4. Center produces scientific papers, books, presentations at PPS meetings and/or applications connected with polymer processing.

The benefits offered to the members will above all include marketing and publicity possibilities.

Later on we hope that our Network will produce information enabling useful cooperation, student/staff exchange and joint projects to be created within the Polymer Processing Society. This Network will be run/coordinated by the PPS executive committee.

Please send me your comments before the Gothenburg meeting (to be held between 28 and 30 August 2007).
